### Engineering controls:
Use only with adequate ventilation. Local exhaust ventilation is recommended when general ventilation is not sufficient to control airborne contamination below occupational exposure limits.

### Respiratory protection:
Use NIOSH approved respirator if there is potential to exceed exposure limit(s). Observe OSHA regulations for respiratory use (29 CFR 1910.134).

### Eye/face protection:
Goggles. Safety glasses with side-shields.

### Skin protection:
Cover as much of the exposed skin area as possible with appropriate clothing.
