SECTION 3 HAZARDS IDENTIFICATION
EMERGENCY OVERVIEW – Blue liquid/paste with mild petroleum odor that is not expected to present any unusual hazards, in proper use. Observe usual precautionary measures for dealing with chemicals when handling material.

POTENTIAL HEALTH EFFECTS
Eyes: Liquid/paste may cause slight irritation.
Skin: Liquid/paste may cause slight skin irritation.
Ingestion: Liquid/paste believed to present very little hazard if swallowed.
Inhalation: Exposure to liquid/paste is not expected to present a hazard.

CHRONIC HEALTH EFFECTS
No information.

SECTION 4 FIRST AID MEASURES
Eyes – Immediately flush eyes with plenty of water for at least 15 minutes.
Inhalation – No adverse effects anticipated by breathing small amounts during handling.
Skin – Flush skin with plenty of water. Remove contaminated clothing and shoes.
Ingestion – If large quantities of this material are swallowed, get immediate medical attention. Never give anything by mouth to an unconscious person.

SECTION 5 FIRE FIGHTING MEASURES
Flash Point (Method Used) Flammable Limits LEL UEL
>200°F No data No data

Extinguishing Media -
Use water fog, foam, dry chemical or CO2. Use water spray to cool fire-exposed containers and to protect personnel. Do not direct a solid stream of water or foam into burning molten material; this may cause spattering and spread the fire.

Special Fire Fighting Procedures -
Keep containers cool and vapors down with water spray. Prevent spill from entering drains, sewers, streams or other bodies of water. If run-off occurs, notify proper authorities.

Unusual Fire and Explosion Hazards – Toxic fumes, gases or vapors may evolve on burning.

- 1-
SECTION 6 ACCIDENTAL RELEASE MEASURES

SMALL SPILL: Allow liquid to cool, collect the solid material and place in non-leaking container; seal properly and dispose of properly in compliance with federal, state, and local regulations.

LARGE SPILL: Allow liquid to cool, collect the solid material and place in non-leaking container; seal properly and dispose of properly in compliance with federal, state, and local regulations.

SECTION 7 HANDLING AND STORAGE

HANDLING: Empty containers retain residue (liquid and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, sparks, flames, static electricity, or other sources of ignition.

STORAGE:
Keep away from heat, sparks and open flames. Keep out of reach of children. Keep container tightly sealed when not in use. Store in cool, well-ventilated place away from incompatible materials.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection (Specify Type) – Not usually necessary. Use with adequate ventilation. A NIOSH- approved air purifying respirator with an organic vapour cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.

Engineering Controls
Local Exhaust Not usually needed
Mechanical (General) Not usually needed
Special None
Other None

Protective Gloves – Chemical resistant gloves (Nitrile rubber, Butyl rubber, Viton™) if skin contact is possible. Consult your safety equipment supplier.

Eye Protection – Not normally required if used as intended. Wear chemical splash goggles in compliance with OSHA regulation if splashing is possible.

Other Protective Clothing or Equipment - Not usually necessary. If direct contact is possible, wear apron, boots, face shield, gloves etc. as needed.

Work/Hygienic Practices - Follow label instructions. Wash hands after use and before eating, drinking, smoking, using restrooms, etc.
