		Section 2 • Hazards Identificati	on	

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

### Emergency Overview:

Bulk: DANGER: Extremely flammable. Harmful or fatal if swallowed.

Primary route(s) of entry: Skin and eye contact. Inhalation.

### Potential Acute Health Effects:

Eyes:	Irritating to eyes.
Skin:	Repeated exposure may cause skin dryness or cracking.
Inhalation:	Excessive inhalation of vapors can cause irritation of the respiratory tract, nausea, dizziness or headache.
Ingestion:	Product has a low order of acute oral toxicity, but ingestion of large quantities may cause nausea, vomiting, and gastrointestinal irritation. May cause injury if aspirated into lungs.

#### **Potential Chronic Health Effects:**

Carcinogenic Effects:	NTP: No	IARC: No	OSHA: No	ACGIH: No
Mutagenic Effects:	None			
Teratogenic Effects:	This material (or component) has be only at exposure levels that harm th		5	nimal studies. Harm to the fetus occurs to humans is uncertain.
Target Organs:	arms and legs) and result in muscul isomers of hexane resulted in kidne to other hydrocarbons. Revision Date: August 24, 2011

Supersedes: July 10, 2009

### Medical conditions aggravated by exposure:

Persons with pre-existing central nervous system (CNS) disease, neurological conditions, skin disorders, chronic respiratory diseases, or impaired liver or kidney function should avoid exposure.

### Signs and Symptoms

Stinging in eyes. Repeated or prolonged skin contact can cause redness, irritation, and scaling of the skin (dermatitis). Breathing of high vapor concentrations may cause headaches, stupor, irritation of throat and eyes, and kidney effects.

Component	CASRN	Weight Percent
2-Methylpentane	107-83-5	40 - 50%
3-Methylpentane	96-14-0	10 - 20%
2,3-Dimethylbutane	79-29-8	10 - 20%
2,2-Dimethylbutane	75-83-2	5 - 10%
n-Heptane	142-82-5	1 - 5%
Isopropanol	67-63-0	1 - 5%
Carbon Dioxide (aerosol only)	124-38-9	1 - 5%
n-Hexane	110-54-3	1 - 3%
Section 4 •	First Aid Measures	

Skin: Remove contaminated shoes and clothing. Clean affected area thoroughly with mild soap and water. DO NOT use ointments. Seek medical attention if irritation persists.

Inhalation: Immediately move victim to fresh air. If victim is not breathing, immediately begin rescue breathing. If heart has stopped, immediately begin cardiopulmonary resuscitation (CPR). If breathing is difficult, seek medical attention immediately.

Ingestion: DO NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If spontaneous vomiting is about to occur, place victim's head below knees. If victim is drowsy or unconscious, place on the left side with head down. DO NOT leave victim unattended. Seek medical attention immediately.

	Revision Date:	August 24, 2011	Supersedes:	July 10, 2009		
Section 5 • Fire Fighting Measures						
Products of Combustion:	Carbon monoxide a	and carbon dioxide.				
General Fire Hazards:	Do not use on ener rupture of closed co	gized equipment. High heat will ca ontainers.	ause product to boil, evolving	vapor that could cause explosive		
Firefighting media:	LARGE FIRE: Use	DRY chemical powder. CO2, water spray, fog or foam. Co auto-ignition or explosions.	ool containing vessels with w	ater jet in order to prevent		
Sensitivity to Impact:	None	Sensitivity to Static Discharg	ge: Yes			
Protection Clothing (Fire):	apparatus to protect	se full bunker gear including NIOS t against potential hazardous com fight the fire from a maximum dista	bustion or decomposition pro	ducts and oxygen deficiencies.		

## Special Remarks on Explosion Hazards:

Aerosols may explode upon heating, spread fire and overcome sprinkler systems.

	Section	6 • Accidental Release Measures		
Containment Procedu	ures: Small Spill and Leak:	Eliminate ignition sources. Absorb with an inert material and dispose of properly.		
	i	Eliminate ignition sources. Secure the area and control access. Dike far ahead of a liquid spill to ensure complete collection. Pick up free liquid for disposal using absorbent pads, sand, or other inert non-combustible absorbent materials. Place into appropriate waste containers for later disposal.		
Clean-Up Procedures	Recover free product and place	in a suitable container for disposal.		
Evacuation Procedure	es: Ventilate area of leak or spill. Ke	eep unnecessary and unprotected people away.		
Special Procedures:	Remove all sources of ignition.	Ventilate area. Wear personal protective equipment during cleanup.		
	Sec	tion 7 • Handling and Storage		
-	DO NOT spray into or around ignition sourc ventilation. Avoid breathing vapors or spray	es. After handling, always wash hands thoroughly with soap and water. Use only with adequate mists.		
Storage:	Keep container closed and in a cool, well-ve	o container closed and in a cool, well-ventilated area. Avoid all sources of ignition (spark or flame). Store below 120°F (49°C).		

## Precautions to be taken in handling and storage:

Store aerosols as Level 3 Aerosol (NFPA 30B). Store bulk liquids as NFPA Class 1B liquid. Store all materials in a dry, well-ventilated area. Avoid breathing vapors. Ground and bond containers before transferring materials.

	124-38-9 5000 ppm PEL		30000 ppm STEL	30000 ppm STEL	None reported

Engineering Controls: Provide general and/or local exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits.

## Personal protective equipment

Eye protection:	Safety glasses with side shields conforming to appropriate regulations. Eye wash fountain and emergency shower facilities are recommended.
Hand protection:	Normally no hand protection is required; however, if product will be sprayed for an extended period, "overspray" onto skin may occur. If so, wear chemical resistant gloves conforming to appropriate regulations. Please observe the instructions regarding permeability and breakthrough time that are provided by the supplier of the gloves. Take into consideration the specific local conditions under which the product is used, such as the danger of the cuts, abrasion and the contact time.
Respiratory protection:	Typical use of this product under normal conditions does not require the use of respiratory protection. If airborne concentrations are above the applicable exposure limits (listed above), use NIOSH approved respiratory protection (i.e. organic vapor cartridge).
General Hygiene Considerations:	Wash thoroughly after handling. Have eye-wash facilities immediately available.

Section 15 • Regulatory Information

### **U.S. Federal Regulations**

RCRA Hazardous Waste No.: D001, D003 (aerosols only)

Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA): n-Hexane 110-54-3 5000 lbs

Toxic Substances Control Act (TSCA):

All components of this product are TSCA inventory listed and/or are exempt.

Superfund Amendments and Reauthorization Act (SARA) Title III SARA Section 311/312 (40 CFR 370) Hazard Categories: Sudden Release of Pressure (aerosols only), Fire Hazard, Immediate (Acute) Health Hazard, Delayed (Chronic) Health Hazard

This product contains the following toxic chemical(s) subject to reporting requirements of SARA Section 313 (40 CFR 372): n-Hexane 110-54-3 3% max.

Section 112 Hazardous Air Pollutants (HAPs): n-Hexane

#### State Regulations

California:

This product contains chemical(s) known to the State of California to cause cancer, birth defects or other reproductive harm.

### California and OTC States:

Aerosol: This product does not conform to consumer product regulations. Bulk: Not for sale in California. In other jurisdictions, this product is not regulated by consumer product regulations.

### New Jersey Right to Know:

Aerosol: 2-Methylpentane 107-83-5 • 3-Methylpentane 96-14-0 • 2,3-Dimethylbutane 79-29-8 • 2,2-Dimethylbutane 75-83-2 • n-Heptane 142-82-5 • Isopropanol 67-63-0 • n-Hexane 110-54-3 • Carbon Dioxide 124-38-9 Bulk: 2-Methylpentane 107-83-5 • 3-Methylpentane 96-14-0 • 2,3-Dimethylbutane 79-29-8 • 2,2-Dimethylbutane 75-83-2 • n-Heptane 142-82-5 • Isopropanol 67-
